

**Blue-Ray
Instruments.
End of year
PROMOTION!**

BIOTOPICS

Blue-Ray Instruments from original manufacturer!

NEW! Blue-Ray Biotech

BETTER EQUIPMENT, BETTER RESEARCH

EzDrop 1000 Micro-Volume Spectrophotometer

MORE THAN JUST SPEED

Fast measurement in 3 seconds. Wide measuring range (190-1000 nm). Easy-to-service.

EzScope 101 Live Cell Imaging System

LIVE CELL LIVE SHOW

EzScope 101 enables microscope-in-incubator to live view for real-time cell monitoring, migration, growth, and invasion, plus a wide range of phenotypic cell-based assays.

Posti Green

THERMAL CYCLERS

TurboCycler 2 Thermal Cycler

ENHANCING PCR EFFICIENCY AND ACCURACY

7" touchscreen with flexible ramp rate and gradient temperature control. The Wi-Fi function enables to monitor the PCR run status anytime remotely.

MiniTurbo Thermal Cycler

AN EFFECTIVE AND PORTABLE THERMAL CYCLER

Featuring high portability and compactness, MiniTurbo provides the same performance as benchtop thermal cyclers.

MICROCENTRIFUGE

TurboFuge Microcentrifuge

MORE CAPACITY, HIGHER SAFETY

The TurboFuge is a compact microcentrifuge with 24/36-place capacity. With multiple safety features and superior heat dissipation design, TurboFuge ensures a safer working environment with delicate sample protection.

End of year PROMOTION!

BLUE-RAY INSTRUMENTS - ORDERING INFORMATION		PRICE	PROMO
BRED-1000	EzDrop 1000 Micro-Volume Spectrophotometer	8900-€	6460 €
BRLC-0101	EzScope 101 Live Cell Imaging System with 10x objective lens	5575-€	4739 €
TCST-9622	Gradient TurboCycler 2 with 96-well Sample Block	4800-€	3442 €
TCMI-0810	MiniTurbo Thermal Cycler with 8-Well Sample Block	+850-€	1572 €
AAMC-2411	TurboFuge Microcentrifuge with aluminum rotor (24 wells) and plastic lid	2200-€	1770 €

Prices valid until the end of December 2020. Vat 0%.
