# MACHEREY-NAGEL Seminar

Wednesday 28th September at 13.30 - 14.30

Biocenter 1, room 3106

Get a deeper understanding into technologies used for nucleic acid purification kits, so they no longer remain a black box to you!

You will also know how to get the best DNA / RNA from difficult and complex samples such as water, microbial, microbiome, soil, stool plant and fungi.

Coffee, tea and bun served.

Welcome!

Michael ter Braak  
Macherey-Nagel GmbH

Matti Raitio  
Biotop Oy

The original manufacturer and developer of the world's first DNA purification kits already in 1985. The kits are made in Germany with a very high standard of quality.
